

Learn more about the Clean Air Planning Act

Reps. Charles Bass (R-NH) and Jim Davis (D-FL), along with Reps. Jim Cooper (D-TN) and Jeb Bradley (R-NH), have introduced a bi-partisan comprehensive legislative proposal to substantially reduce harmful air emissions from our nation's power plants. Please join us to learn more about this reasonable approach that attempts to balance the need to improve our nation's air quality and the need for reliable cost-effective energy.
